

Tomorrow (May 17th 2024), you will have two assessments:

1. MCQ test (2:00 PM to 2:30 PM)
2. Programming test. (4:00 PM to 5:00 PM)

Note: Only those who are shortlisted in the MCQ test will be eligible to attend the programming test.

Assessment - 1 MCQ Test

Assessment link : You will receive the assessment email 10 minutes before the assessment. Be ready and actively check your email

1. Test duration is 30 minutes from 2:00 PM to 2:30 PM.
2. It consists of 20 questions (based on programming, logic, and general analytical skills.
3. It is in a Google form format and time restricted. Students will not be able to edit the same after 2:30 PM.
4. There are NO negative markings for incorrect answers.
5. Make suitable assumptions where necessary.
6. Ensure that you submit the test before 2:30 PM.

Assessment - 2 Programming test :

For shortlisted candidates, the programming test will be at 4 PM. The company will share the instructions and programming papers with you directly. However, you can also refer to the instructions here.

1. Open your Google drive: <http://drive.google.com> (email address should be hosted on Gmail)
2. Click on "Shared with me" tab
3. You should be able to see the test document shared (from a "joinrsl.com" account). Please refresh this every couple of minutes to see the latest content.
4. Test duration is 1 hour, 4:00 PM to 5:00 PM.
5. It consists of 5 programming questions. You can use any programming language you are comfortable with.
6. Do NOT download the paper. You have to edit and add answers in the google docs itself. You should add answers below each question.
7. It is okay if the syntax is not 100% accurate and it does not compile. But NO pseudo-code is allowed.

8. Once you complete the test, close the document file (it is OKAY if you keep it open as well). The access to the document will be revoked after the one hour duration of the test completes.
9. Ensure that you complete the test before 5:00 PM.

Important Notes:

- Please fill in the correct email address in the MCQ form (should be hosted on Gmail)
- The company will easily identify any malpractice, which could result in immediate elimination from the assessment, creating a negative impact on your skill profile. (Don't try to do MALPRACTICE)
